

DSC Test Procedure with MRCC

In order to do your DSC test with MRCC they have recommended that yachts leave their berth or typhoon shelter to go to an open area in order to complete the test.

HKMRCC - MMSI # 004773500
Frequency – MF2187.5khz

Please see the below YouTube link for a reminder on how to set up a DSC test, please note to use the MMSI number and frequency above.
